

Week 2:

Action Steps:

Consider the current level of service in your life.

- Do you often engage with people who are different than you? If not, what prevents that from happening? If so, do you seek out those people to serve or does it happen organically?
- Can you identify what challenges and makes you uncomfortable about it and why?
- Do you serve others without a personal agenda?
- Have you ever attempted to befriend someone who persecuted or hurt you? What happened?
- Could you name what you've learned about/from the people you've served who are different from you?
- Could you name what you've learned about/from God through serving others who are different from you?

Action: Take time this week in prayer to ask God where He's leading you to serve others who are unlike you, then share with others about the experience.
